

FREEZER CORN

Kuntz Family

Ingredients

4 quarts cut corn

1 quart water

1/2 c. sugar (a little more if you like it sweeter or if your corn is not very sweet)

4 rounded tsp. salt

Instructions

1. Mix together in a large kettle and cook for 10 minutes.
2. Cool and pack in quart freezer bags.
3. Can spread in large pan to cool.
4. Pack liquid with the corn in the freezer bag.
5. When ready to use, just defrost.
6. Then heat it up in the microwave with a little butter and serve!

Note: We use this to harvest all of our sweet corn and freeze it to use during winter months!
